PEUMP

Pacific-European Union Marine Partnership Programme

This Factsheet highlights some of the Key Result Area (KRA) achievements of the **Pacific-European Union Marine Partnership (PEUMP)** Programme in Nauru. The PEUMP programme provides its assistance across 15 Pacific Island Countries to promote sustainable fisheries management and sound ocean governance. This is done through a holistic and multi-sectoral approach that contributes to the **social, economic and environmental** development of the Pacific. The KRA's are achieved through eight PEUMP partner organisations, each contributing to the implementation of the programme objectives.
